

ISLA LPG Gas Refilling Facility Construction Project

Client:

ISLA Petroleum and Gas Corporation (ISLA LPG)

Operator:

ISLA LPG

Services:

Design, engineering, supply, fabrication, construction and site installation, commissioning works

Location:

Canlubang, Laguna, Philippines

Project site:

ISLA LPG Canlubang Plant, Laguna, Philippines

AG&P was contracted by ISLA LPG to undertake the engineering, procurement and construction works for the liquefied petroleum gas (LPG) refilling facility at ISLA LPG in Canlubang, Laguna, Philippines. AG&P's scope of work included design, engineering, supply, fabrication, construction, site installation and commissioning works.

This state-of-the-art refilling plant provides LPG consumers in Metro Manila and Southern Luzon with easier access to high-quality LPG products and solutions. ISLA LPG also has facilities in Bacolod, Cagayan de Oro, Davao, Iloilo, Pasig, and the provinces of La Union, Leyte and Pampanga.

AG&P provided a dedicated team of experienced professionals to take responsibility for functions at the project site and provided project-specific training at AG&P's facilities prior to deployment. AG&P's highly-trained team brought international quality and safety standards to the project.

AG&P successfully completed its project scope with zero Lost-Time Incidents (LTI). AG&P has an unmatched global safety record with more than 50 million consecutive man-hours without LTI and only one minor incident over the last decade.
