

Mafumeira Sul Platform Project

Client:

Daewoo Shipbuilding & Marine Engineering Company (DSME)

Operator:

Chevron Texaco (Cabinda Oil & Gas Fields)

Services:

Pre-planning, offshore hook-up, pre-commissioning and commissioning assistance

Location:

Angola, West Africa

Project site:

24km offshore from Cabinda Province off the west coast of Angola

AG&P was contracted by DSME to undertake pre-planning, hook-up, pre-commissioning and commissioning works for the second stage of development for the Mafumeira Sul Platform (MSP) project in Angola.

AG&P provided onsite technical and management support for the project, including the mobilization of 1,277 managers, supervisors, planning staff, safety personnel and highly skilled welders, fitters, scaffolders and riggers for the project's hook-up, pre-commissioning and commissioning works. The workers arrived onsite ready to work and fully trained to comply with the latest international safety and quality standards.

AG&P is licensed by the Philippine government to recruit, process and deploy locally based workers to overseas jobs. AG&P is a consistent recipient of awards and recognition by the government and clients for excellence in overseas manpower deployment.

AG&P successfully completed its project scope with zero Lost-Time Incidents (LTI). AG&P has an unmatched global safety record with more than 50 million consecutive man-hours without LTI and only one minor incident over the last decade.
